

JAMEEL AHMAD

PYTHON AI/ML ENGINEER

Johar Town Lahore lifecolorjameel@gmail.com | 0308-6309698 , 03127139229

Innovative and results-oriented Python AI/ML Engineer with over 2 years of teaching experience and hands-on expertise in developing intelligent systems. Proficient in building scalable APIs with FastAPI, data-driven applications, and generative AI solutions. Adept at applying machine learning, deep learning, and data processing to create efficient, production-ready systems. Experienced in database technologies including Graph DB and Vector DB, and integrating OCR for intelligent document processing. Passionate about leveraging AI to solve complex real-world problems with clean, maintainable code and modern web technologies such as Streamlit, HTML, CSS, and JavaScript.

AREA OF EXPERTISE

FastAPI	Data Scraping	Graph Databases	Vector Databases.
Streamlit	Model Deployment.	OCR	Machine Learning
Deep Learning	Generative AI.	HTML, CSS, JavaScript	API Design

KEY ACHIEVEMENTS

- AI Workflow Automation:** Built end-to-end AI/ML pipelines integrating FastAPI and Vector DB for real-time data insights and document retrieval.
- Generative AI Development:** Designed prototype chat-based AI applications using Streamlit and LLM-based models to enhance customer support automation.
- Data Optimization:** Automated data extraction workflows using advanced web scraping and OCR, reducing data preparation time by 40%

PROFESSIONAL EXPERIENCE

AI/ML Trainee Engineer, InvoZone July - 2025. Present

- Worked on model fine-tuning and API development using FastAPI for scalable ML deployment.
- Developed and optimized data pipelines integrating OCR and Vector Databases for intelligent search systems.
- Implemented Streamlit dashboards for AI model visualization and user interaction.

Computer Science Lecturer Feb 2023 - Nov 2025

- Delivered courses on Artificial Intelligence, Machine Learning, and Python programming.
- Mentored students in real-world AI/ML projects and guided research in deep learning applications.
- Designed and implemented academic machine learning experiments to demonstrate data science principles.

EDUCATION

Master of Science in Computer Science (MS CS) Aug 2022 - Oct 2024

- University of Sialkot, 2024

ADDITIONAL INFORMATION

- Languages: English, Urdu
- Certifications: AI/ML , HTML , CSS , JS
- Technical Tools: VS Code, Jupyter Notebook, PyCharm, Google Colab, Cursor
